EXPERIENCE

Internship   Aug. 2023 - Sept. 2023
Technohacks Edutech   *Python Developer*

- Completed a one month internship as a Python developer with amazing learning experience.
- Created different python based programmed like- Calculator, To-do list and a Temperature unit converter.

PROJECTS

WASRUK   *Html,Css, JavaScript, ReactJS, Python*

- WasRuk collects the segregated waste from the households and that segregated waste is again segregated into multiple categories and directly sold to the recycling industry and to the biogas plant while we make profit from that waste and try to return some of part of the revenue to each household so that they stay motivated to help us in the cause.
- WasRuk's motto is to promote waste segregation among people. They offer a certificate of appreciation from the Government of India and facilitate the return of waste value through their website and app..

Diabetes Prediction Model   *Python, ML*

- A Machine Learning Model that predicts whether a Person is Diabetic or not
- Diabetes Mellitus is among critical diseases and lots of people are suffering from this disease. Age, obesity, lack of exercise, hereditary diabetes, living style, bad diet, high blood pressure, etc. can cause Diabetes Mellitus.
